

# Math Review

## 17

Name \_\_\_\_\_

# Day 1

1. My job is to count by 10's.

\_\_\_\_\_

I can find how many by counting by 10's.

3. My job is to solve the addition problem by drawing dots.

$$4 + 5 = \underline{\quad}$$

I can find how many in all by drawing dots.

Name \_\_\_\_\_  
Date \_\_\_\_\_

2. My job is to solve the addition problem by locking 10 in my head and counting on.

$$\begin{array}{r} 10 \\ + 8 \\ \hline \end{array}$$

I can find how many in all by locking 10 in my head and counting on.

4. My job is to count the tally marks and write how many.

\_\_\_\_\_

I can find how many by counting the tally marks.

## Day 2

1. My job is to count by 10's.

\_\_\_\_\_

I can find how many by counting by 10's.

3. My job is to solve the addition problem by drawing dots.

$$7 + 3 = \underline{\quad}$$

I can find how many in all by drawing dots.

Name \_\_\_\_\_  
Date \_\_\_\_\_

2. My job is to solve the addition problem by locking 10 in my head and counting on.

$$\begin{array}{r} 10 \\ + 5 \\ \hline \end{array}$$

I can find how many in all by locking 10 in my head and counting on.

4. My job is to count the tally marks and write how many.

\_\_\_\_\_

I can find how many by counting the tally marks.

## Day 3

1. My job is to count by 10's.

\_\_\_\_\_

I can find how many by counting by 10's.

3. My job is to solve the addition problem by drawing dots.

$$3 + 5 = \underline{\quad}$$

I can find how many in all by drawing dots.

Name \_\_\_\_\_  
Date \_\_\_\_\_

2. My job is to solve the addition problem by locking 10 in my head and counting on.

$$\begin{array}{r} 10 \\ + 3 \\ \hline \end{array}$$

I can find how many in all by locking 10 in my head and counting on.

4. My job is to count the tally marks and write how many.

\_\_\_\_\_

I can find how many by counting the tally marks.

Day 4

Name \_\_\_\_\_  
Date \_\_\_\_\_

1. My job is to count by 10's.

\_\_\_\_\_

I can find how many by counting by 10's.

2. My job is to solve the addition problem by locking 10 in my head and counting on.

$$\begin{array}{r} 10 \\ + 7 \\ \hline \end{array}$$

I can find how many in all by locking 10 in my head and counting on.

3. My job is to solve the addition problem by drawing dots.

$$8 + 2 = \underline{\quad}$$

I can find how many in all by drawing dots.

4. My job is to count the tally marks and write how many.

I can find how many by counting the tally marks.

## Day 5

1. My job is to count by 10's.

\_\_\_\_\_

I can find how many by counting by 10's.

3. My job is to solve the addition problem by drawing dots.

$$4 + 4 = \underline{\quad}$$

I can find how many in all by drawing dots.

Name \_\_\_\_\_  
Date \_\_\_\_\_

2. My job is to solve the addition problem by locking 10 in my head and counting on.

$$\begin{array}{r} 10 \\ + 4 \\ \hline \end{array}$$

I can find how many in all by locking 10 in my head and counting on.

4. My job is to count the tally marks and write how many.

I can find how many by counting the tally marks.

1. My job is to count by 10's.

\_\_\_\_\_

I can find how many by counting by 10's.

3. My job is to solve the addition problem by drawing dots.

$$9 + 3 = \underline{\quad}$$

I can find how many in all by drawing dots.

Name \_\_\_\_\_  
Date \_\_\_\_\_

2. My job is to solve the addition problem by locking 10 in my head and counting on.

$$\begin{array}{r} 10 \\ + 1 \\ \hline \end{array}$$

I can find how many in all by locking 10 in my head and counting on.

4. My job is to count the tally marks and write how many.

\_\_\_\_\_

I can find how many by counting the tally marks.

## Day 7

1. My job is to count by 10's.

\_\_\_\_\_

I can find how many by counting by 10's.

3. My job is to solve the addition problem by drawing dots.

$$6 + 4 = \underline{\quad}$$

I can find how many in all by drawing dots.

Name \_\_\_\_\_  
Date \_\_\_\_\_

2. My job is to solve the addition problem by locking 10 in my head and counting on.

$$\begin{array}{r} 10 \\ + 9 \\ \hline \end{array}$$

I can find how many in all by locking 10 in my head and counting on.

4. My job is to count the tally marks and write how many.

\_\_\_\_\_

I can find how many by counting the tally marks.

Name \_\_\_\_\_  
Date \_\_\_\_\_

1. My job is to count by 10's.

\_\_\_\_\_

I can find how many by counting by 10's.

2. My job is to solve the addition problem by locking 10 in my head and counting on.

$$\begin{array}{r} 10 \\ + 0 \\ \hline \end{array}$$

I can find how many in all by locking 10 in my head and counting on.

3. My job is to solve the addition problem by drawing dots.

$$7 + 2 = \underline{\quad}$$

I can find how many in all by drawing dots.

4. My job is to count the tally marks and write how many.

I can find how many by counting the tally marks.

## Day 9

1. My job is to count by 10's.

I can find how many by counting by 10's.

3. My job is to solve the addition problem by drawing dots.

$$5 + 4 = \underline{\quad}$$

I can find how many in all by drawing dots.

Name \_\_\_\_\_

Date \_\_\_\_\_

2. My job is to solve the addition problem by locking 10 in my head and counting on.

$$\begin{array}{r} 10 \\ + 2 \\ \hline \end{array}$$

I can find how many in all by locking 10 in my head and counting on.

4. My job is to count the tally marks and write how many.

I can find how many by counting the tally marks.

1. My job is to count by 10's.

I can find how many by counting by 10's.

3. My job is to solve the addition problem by drawing dots.

$$1 + 6 = \underline{\quad}$$

I can find how many in all by drawing dots.

Name \_\_\_\_\_  
Date \_\_\_\_\_

2. My job is to solve the addition problem by locking 10 in my head and counting on.

$$\begin{array}{r} 10 \\ + 6 \\ \hline \end{array}$$

I can find how many in all by locking 10 in my head and counting on.

4. My job is to count the tally marks and write how many.

\_\_\_\_\_

I can find how many by counting the tally marks.
