

Math Review

19

Name _____

Day 1

1. My job is to count by 5's to complete the number sequence.

5, _____, _____, _____

I can write the numbers in order by skip counting by 5's.

3. My job is to solve the addition problem by picking a strategy.

$$9 + 3 = \underline{\hspace{2cm}}$$

I can find how many in all by _____.

Name _____
Date _____

2. My job is to solve the subtraction problem by picking a strategy.

$$10 - 4 = \underline{\hspace{2cm}}$$

I can find how many are left by _____.

4. My job is to find the number that comes before and after.

$$\underline{\hspace{2cm}} 22 \underline{\hspace{2cm}}$$

I can find the number that comes before and after by counting in order.

Day 2

1. My job is to count by 5's to complete the number sequence.

15, _____, _____, _____

I can write the numbers in order by skip counting by 5's.

3. My job is to solve the addition problem by picking a strategy.

$$2 + 7 = \underline{\hspace{2cm}}$$

I can find how many in all by _____.

Name _____

Date _____

2. My job is to solve the subtraction problem by picking a strategy.

$$5 - 4 = \underline{\hspace{2cm}}$$

I can find how many are left by _____.

4. My job is to find the number that comes before and after.

$$\underline{\hspace{2cm}} 20 \underline{\hspace{2cm}}$$

I can find the number that comes before and after by counting in order.

Day 3

1. My job is to count by 5's to complete the number sequence.

25, _____, _____, _____

I can write the numbers in order by skip counting by 5's.

3. My job is to solve the addition problem by picking a strategy.

$$5 + 5 = \underline{\quad}$$

I can find how many in all by _____.

Name _____
Date _____

2. My job is to solve the subtraction problem by picking a strategy.

$$8 - 6 = \underline{\quad}$$

I can find how many are left by _____.

4. My job is to find the number that comes before and after.

$$\underline{\quad} 27 \underline{\quad}$$

I can find the number that comes before and after by counting in order.

Day 4

1. My job is to count by 5's to complete the number sequence.

35, _____, _____, _____

I can write the numbers in order by skip counting by 5's.

3. My job is to solve the addition problem by picking a strategy.

$$7 + 3 = \underline{\quad}$$

I can find how many in all by _____.

Name _____

Date _____

2. My job is to solve the subtraction problem by picking a strategy.

$$6 - 1 = \underline{\quad}$$

I can find how many are left by _____.

4. My job is to find the number that comes before and after.

$$\underline{\quad} 29 \underline{\quad}$$

I can find the number that comes before and after by counting in order.

Day 5

1. My job is to count by 5's to complete the number sequence.

60, _____, _____, _____

I can write the numbers in order by skip counting by 5's.

3. My job is to solve the addition problem by picking a strategy.

$$3 + 5 = \underline{\quad}$$

I can find how many in all by _____.

Name _____
Date _____

2. My job is to solve the subtraction problem by picking a strategy.

$$9 - 5 = \underline{\quad}$$

I can find how many are left by _____.

4. My job is to find the number that comes before and after.

$$\underline{\quad} 24 \underline{\quad}$$

I can find the number that comes before and after by counting in order.

Day 6

1. My job is to count by 5's to complete the number sequence.

45, _____, _____, _____

I can write the numbers in order by skip counting by 5's.

3. My job is to solve the addition problem by picking a strategy.

$$9 + 4 = \underline{\quad}$$

I can find how many in all by _____.

Name _____

Date _____

2. My job is to solve the subtraction problem by picking a strategy.

$$3 - 2 = \underline{\quad}$$

I can find how many are left by _____.

4. My job is to find the number that comes before and after.

$$\underline{\quad} 21 \underline{\quad}$$

I can find the number that comes before and after by counting in order.

Day 7

1. My job is to count by 5's to complete the number sequence.

75, _____, _____, _____

I can write the numbers in order by skip counting by 5's.

3. My job is to solve the addition problem by picking a strategy.

$$10 + 6 = \underline{\hspace{2cm}}$$

I can find how many in all by _____.

Name _____

Date _____

2. My job is to solve the subtraction problem by picking a strategy.

$$7 - 3 = \underline{\hspace{2cm}}$$

I can find how many are left by _____.

4. My job is to find the number that comes before and after.

$$\underline{\hspace{2cm}} - 25 = \underline{\hspace{2cm}}$$

I can find the number that comes before and after by counting in order.

Day 8

1. My job is to count by 5's to complete the number sequence.

20, _____, _____, _____

I can write the numbers in order by skip counting by 5's.

3. My job is to solve the addition problem by picking a strategy.

$$0 + 9 = \underline{\hspace{2cm}}$$

I can find how many in all by _____.

Name _____

Date _____

2. My job is to solve the subtraction problem by picking a strategy.

$$4 - 2 = \underline{\hspace{2cm}}$$

I can find how many are left by _____.

4. My job is to find the number that comes before and after.

$$\underline{\hspace{2cm}} 23 \underline{\hspace{2cm}}$$

I can find the number that comes before and after by counting in order.

Day 9

1. My job is to count by 5's to complete the number sequence.

30, _____, _____, _____

I can write the numbers in order by skip counting by 5's.

3. My job is to solve the addition problem by picking a strategy.

$$8 + 3 = \underline{\quad}$$

I can find how many in all by _____.

Name _____
Date _____

2. My job is to solve the subtraction problem by picking a strategy.

$$8 - 7 = \underline{\quad}$$

I can find how many are left by _____.

4. My job is to find the number that comes before and after.

$$\underline{\quad} \quad 26 \quad \underline{\quad}$$

I can find the number that comes before and after by counting in order.

Day 10

1. My job is to count by 5's to complete the number sequence.

85, _____, _____, _____

I can write the numbers in order by skip counting by 5's.

3. My job is to solve the addition problem by picking a strategy.

$$5 + 7 = \underline{\hspace{2cm}}$$

I can find how many in all by _____.

Name _____
Date _____

2. My job is to solve the subtraction problem by picking a strategy.

$$10 - 5 = \underline{\hspace{2cm}}$$

I can find how many are left by _____.

4. My job is to find the number that comes before and after.

$$\underline{\hspace{2cm}} 28 \underline{\hspace{2cm}}$$

I can find the number that comes before and after by counting in order.
