

Math Review

7

Name _____

1. My job is to find the missing numbers.

5 _____ 7 _____ 9

I can find the missing numbers by looking at the numbers before and after.

3. My job is to count the objects and find how many in all.

_____ + _____ = _____

I can count the objects and write how many in all.

Name _____
Date _____

2. My job is to show the number seven (7) by counting on.

I can show and write the number seven (7).

4. My job is to count the dots and circle the amount that is greater than.

I can find the greater amount by counting the dots.

Day 2

1. My job is to find the missing numbers.

6 _____ 8 _____ 10

I can find the missing numbers by looking at the numbers before and after.

3. My job is to count the objects and find how many in all.

_____ + _____ = _____

I can count the objects and write how many in all.

Name _____
Date _____

2. My job is to show the number nine (9) by counting on.

I can show and write the number seven (7). _____

4. My job is to count the dots and circle the amount that is greater than.

_____ > _____

I can find the greater amount by counting the dots.

1. My job is to find the missing numbers.

4 _____ 6 _____ 8

I can find the missing numbers by looking at the numbers before and after.

3. My job is to count the objects and find how many in all.

_____ + _____ = _____

I can count the objects and write how many in all.

2. My job is to show the number six (6) by counting on.

I can show and write the number six (6).

4. My job is to count the dots and circle the amount that is greater than.

I can find the greater amount by counting the dots.

1. My job is to find the missing numbers.

$$7 \quad \underline{\quad} \quad 9 \quad \underline{\quad} \quad 11$$

I can find the missing numbers by looking at the numbers before and after.

3. My job is to count the objects and find how many in all.

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

I can count the objects and write how many in all.

Name _____
Date _____

2. My job is to show the number eight (8) by counting on.

I can show and write the number eight (8).

4. My job is to count the dots and circle the amount that is greater than.

$$\underline{\quad} > \underline{\quad}$$

I can find the greater amount by counting the dots.

Name _____
Date _____

1. My job is to find the missing numbers.

4 _____ 6 _____ 8

I can find the missing numbers by looking at the numbers before and after.

3. My job is to count the objects and find how many in all.

_____ + _____ = _____

I can count the objects and write how many in all.

2. My job is to show the number ten (10) by counting on.

I can show and write the number ten (10). _____

4. My job is to count the dots and circle the amount that is greater than.

I can find the greater amount by counting the dots.

Name _____
Date _____

1. My job is to find the missing numbers.

5 _____ 7 _____ 9

I can find the missing numbers by looking at the numbers before and after.

3. My job is to count the objects and find how many in all.

_____ + _____ = _____

I can count the objects and write how many in all.

2. My job is to show the number nine (9) by counting on.

I can show and write the number nine (9). _____

4. My job is to count the dots and circle the amount that is greater than.

I can find the greater amount by counting the dots.

1. My job is to find the missing numbers.

6 _____ 8 _____ 10

I can find the missing numbers by looking at the numbers before and after.

3. My job is to count the objects and find how many in all.

_____ + _____ = _____

I can count the objects and write how many in all.

Name _____
Date _____

2. My job is to show the number six (6) by counting on.

I can show and write the number six (6). _____

4. My job is to count the dots and circle the amount that is greater than.

I can find the greater amount by counting the dots.

1. My job is to find the missing numbers.

4 _____ 6 _____ 8

I can find the missing numbers by looking at the numbers before and after.

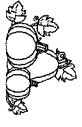

3. My job is to count the objects and find how many in all.

_____ + _____ = _____

I can count the objects and write how many in all.

2. My job is to show the number eight (8) by counting on.

I can show and write the number eight (8). _____

4. My job is to count the dots and circle the amount that is greater than.

I can find the greater amount by counting the dots.

1. My job is to find the missing numbers.

5 _____ 7 _____ 9

I can find the missing numbers by looking at the numbers before and after.

3. My job is to count the objects and find how many in all.

_____ + _____ = _____

I can count the objects and write how many in all.

Name _____
Date _____

2. My job is to show the number ten (10) by counting on.

I can show and write the number ten (10). _____

4. My job is to count the dots and circle the amount that is greater than.

I can find the greater amount by counting the dots.

1. My job is to find the missing numbers.

6 _____ 8 _____ 10

I can find the missing numbers by looking at the numbers before and after.

3. My job is to count the objects and find how many in all.

I can count the objects and write how many in all.

2. My job is to show the number nine (9) by counting on.

Name _____
Date _____

I can show and write the number nine (9).

4. My job is to count the dots and circle the amount that is greater than.

I can find the greater amount by counting the dots.
